COMMITTEE ON UNDERGRADUATE STUDIES AND ADVISING
Minutes of the Meeting for November 11, 2008

The committee met on Tuesday, November 11, 2008, at 11:00 a.m. in Room 210 Strong Hall. The following were present: Banwart, Blackmore, Bradley, Burright, Crosby, Dickey, Dozier, Earnhart, Hayes, Kuczera, Ledom, Madden, Manning, McNeley, Mielke, Mort, Mukherjee, Roberts, Rudolph, Tucker

MINUTES A motion was made and seconded to approve the October 28, 2008 minutes of Committee on Undergraduate Studies & Advising as submitted. The motion was approved unanimously.

CHAIR'S REPORT Professor Madden reserved the Chair’s report for discussion of the revised Bachelor of General Studies degree under Old Business.

DEAN'S REPORT No report.

CLA&S STUDENT ACADEMIC SERVICES REPORT Dr. Kim McNeley presented a request from the University Academic Policy and Procedures (AP&P) Committee to look at a proposal from Student Senate which would require faculty to submit midterm grades after the first seven weeks of each term. The purpose for the proposal, from students’ viewpoint, was that students often are not receiving enough feedback from faculty during the semester. Discussion followed with this suggestion that midterm grades may serve as a wake-up call for students earning a C- or below, although it would create additional work for instructors. It was noted that KU currently has an academic warning system that is not well utilized, and the academic warning system is under review to look at ways to make it more available to faculty. A concern was raised as to whether or not students would act on an academic warning if received. Overall feedback was not favorable for issuing midterm grades and Dr. McNeley will relay the feedback to University AP&P.

SUBCOMMITTEE CHAIR REPORTS

A. ADVISING & AWARDS – No Report.

B. CURRICULAR CHANGES/DEGREE REQUIREMENTS—
   BIOL 360, GERM 218, JWSH 350, REES 492 and REES 496

   All curricular changes noted above were approved.

   DEGREE REQUIREMENTS FOR APPROVAL:
   1. HL Principal Course Status for JWSH 311, JWSH 327 and JWSH 572
   2. Correction to previously approved deletion of a course: HA 511

   All degree requirements noted above were approved after discussion clarifying the correction to the previously approved deletion of a course was related only to the course number, HA 511, and did not change the content of the previous approval.

C. ACADEMIC STANDARDS – No Report.

OLD BUSINESS

Discussion of KUCE College Course Offerings Review and Approval was opened with a reminder that in May 2007 University Governance voted to designate KUCE course offering as resident credit (effective Fall 2009). The appropriate academic departments in the College have reviewed all KUCE courses. The primary areas each department was asked to evaluate were: are the KUCE courses are of an appropriate quality as KU resident courses; can it be confirmed the KUCE courses are equivalent in content and expectations (not teaching methodology) with current KU resident courses that are already approved by CUSA; and are the course descriptions the same for both KU resident and KUCE courses with identical prefix and number?

Handouts detailing the KUCE course review results for 150 courses (attached) were provided by Karen Ledom to the committee members, and Ms. Ledom gave an overview of the categories listed on the handout. The categories covered approval with no changes necessary; approval with changes; topics courses; and discontinued courses.
After review and evaluation of all materials, which included the KUCE course description, name and sometimes curriculum vitae of instructor, and generally the course syllabus, departments indicated their decisions for each course administered by KUCE. The “approval with changes” category included requests by the department for the KUCE course descriptions to be changed to better match the KU resident course descriptions, minor changes such as a difference in punctuation, and changes in the KU resident course description to better match the KUCE course description. For the latter, approval by CUSA will be required since these are approved course descriptions being changed. Three courses, ANTH 100, ANTH 108 and ANTH 308, will be submitted to CUSA for approval following normal curricular change procedures.

The topics course descriptions will be changed to match KU’s general topic description of the course, and then may list each specific topic listed below the main description. Karen Ledom noted there may still be some clean-up necessary for cross-listed courses. It was also noted that this agenda item was brought to the committee to acknowledge on record that each KUCE course had been reviewed and evaluated by the departments.

Dr. McNeley relayed that the question had been raised about grading scales and if Credit/No Credit should be used instead of a letter grade. Department feedback on all but one course indicated the preference was that the grading scale should be left to instructor’s discretion.

Further discussion included:
A question of whether or not there is a way to distinguish on a transcript if a course had been taken on campus or through KUCE. Yes, in intersession, not regular academic terms.
A note that department chairs had proposed a maximum number of distance learning hours, but no mechanism is in place yet to enforce this.
A concern was noted that it will never be known on transfer work if a student completed a transfer course online or not.

The discussion of the revised Track 2 of the Bachelor of General Studies Degree (BGS) was continued from the previous CUSA meeting. The revised draft was provided for additional review and comments. This revision reduces the World Culture requirement from 4 to 3 courses (proposed as 2 courses in a single foreign language, and 1 world culture course). The question arose as to whether or not the world culture course should be the same as the foreign language being studied, or any world culture course. This was not required.

The revised Track 2 also proposes a Non-Principal requirement across the categories of Humanities, Natural Sciences and Math, Social/Behavioral Sciences, with one course in each category that cannot be a principal course. It was also proposed that there might be a restriction of no more than 4 elective courses within any one department or program. Discussion ensued as to whether or not students might be able to obtain a minor by completing up to 7 courses in one department or program by adding elective hours to required principal courses. The question of whether or not this degree track could be completed online was raised but at this time it appears it could not because of a lack of JR/SR level courses available online. Other issues brought up were accommodations for the foreign language requirement, and how many courses a student could take in one department and still earn a broadly-based degree. The goals of this track were revisited with the reminder that the Dean has invited departments to make additional online courses, up to about 10%, available. There was concern that crafting a “tailor-made” degree could put a burden on advisors. That was addressed with the reminder that the College “Special Major” already is a tailor-made degree requiring close work with faculty, and the reminder that the Dean has indicated a willingness to allocate additional resources for advising should this BGS Track 2 be approved.

There was additional discussion about the proposal to revise the requirement about elective credit, “No more than 4 courses of elective credit may be completed within a single department/program,” but final decision was to keep that statement as it is.

Additional discussion followed, clarifying that the foreign language component can be fulfilled utilizing currently-approved options, such as testing out, AEC proficiency, etc.

It was proposed, and agreed, that the BGS Track 1 should remain as it now stands, and the BGS Track 2 should be amended to include language explicitly stating that students cannot be awarded a major or a minor with this track. A concern was raised about the descriptive language for this track, in that it should not specify “…students in Western Kansas…,” but be a distance learning option for all students.
The motion to add a BGS Track 2 degree option was moved, seconded, and approved as revised, with the amendments noted above.

The meeting adjourned at 12:00 P.M.
The following courses were approved by the departments/programs with NO CHANGES NECESSARY:

- AAAS 105 – Introduction to African History – 3 hrs

ANTHROPOLOGY

CHANGE: DESCRIPTION, TITLE
ANTH 544 PHYSICAL ANTHROPOLOGY OF AMERICAN INDIANS 3 N
(OLD) A survey of the genetic, demographic, and morphological variability in the indigenous populations of the New World. Prerequisite: An introductory course in physical anthropology, biology, or permission of instructor.

ANTH 544 ORIGINS OF NATIVE AMERICANS 3 N
(NEW) A survey of the genetic, linguistic, historic, archaeological, and morphological evidence for the origins of indigenous populations of the Americas. Prerequisite: An introductory course in physical anthropology, biology, or permission of instructor.

ENGLISH

CHANGE: PREREQUISITE, TITLE, DESCRIPTION
ENGL 308 INTERPRETATION OF LITERATURE 3 HL, H
(OLD) Study of significant problems in literary interpretation and methodology, in which basic critical principles and approaches will be systematically examined and applied. These approaches might include, but are not limited to, feminism, Marxism, deconstruction, psychoanalysis, and cultural studies. Prerequisite: Completion of the freshman-sophomore requirement or its equivalent.

ENGL 308 INTRODUCTION TO LITERARY CRITICISM AND THEORY 3 HL, H
(NEW) Study of significant problems in literary interpretation and methodology, in which basic critical principles and approaches are systematically examined and applied. These approaches might include, but are not limited to, feminism, Marxism, deconstruction, psychoanalysis, and cultural studies. Prerequisite: Prior completion of the freshman-sophomore requirement or its equivalent.

CHANGE: NUMBER, DESCRIPTION
ENGL 526 AFRICAN LITERATURE: _____ 3 H
(OLD) An advanced study of a topic, genre, or area of written and/or oral African literature. Emphasis will be placed on the critical analysis of major works, as well as their cultural and historical contexts. The course will also address central critical and theoretical debates in the field. May be repeated for credit as the topic changes. Prerequisite: Prior completion of the freshman-sophomore English requirement or its equivalent.

ENGL 674 AFRICAN LITERATURE: _____ 3 H
(NEW) An advanced study of a topic, genre, or area of written and/or oral African literature. Emphasis is placed on the critical analysis of major works, as well as their cultural and historical contexts. The course also addresses central critical and theoretical debates in the field. May be repeated for credit as the topic changes. Prerequisite: Prior completion of the freshman-sophomore English requirement or its equivalent.
THEATRE & FILM

CHANGE: PREREQUISITE
TH&F 603 THEATRE FOR YOUNG AUDIENCES  3  H
(OLD)  A survey of theories, history, literature, criticism, production methods, and audience research about theatre performed by adults for children and adolescents. Emphasis is on child development and community outreach. Prerequisite: TH&F 309, or consent of instructor.

TH&F 603 THEATRE FOR YOUNG AUDIENCES  3  H
(NEW)  A survey of theories, history, literature, criticism, production methods, and audience research about theatre performed by adults for children and adolescents. Emphasis is on child development and community outreach. Prerequisite: TH&F 508, or consent of instructor.

CHANGE: PREREQUISITE
TH&F 609 PLAY DIRECTING  3  H
(OLD)  Readings, lectures, and practice dealing with the relationship between actor and director with application to both stage and film. Prerequisite: TH&F 509.

TH&F 609 PLAY DIRECTING  3  H
(NEW)  Readings, lectures, and practice dealing with the relationship between actor and director with application to both stage and film. Prerequisite: TH&F 308.

2. Degree Requirements for Approval

a) Change to BS Geography Major – Physical Geography emphasis

Proposal:
Foundation Courses
Current: a. Physical: Choose three of the following
GEOG 304 Environmental Conservation
GEOG 321 Climate and Climate Change
GEOG 331 Regional Geomorphology of the United States
GEOG 338 River Systems
GEOG 535 Introduction to Soil Geography
Change to:
Physical: Choose three of the following
GEOG 304 Environmental Conservation
GEOG 321 Climate and Climate Change
GEOG 331 Regional Geomorphology of the United States
GEOG 332 Glaciers and Landscapes
GEOG 335 Introduction to Soil Geography (or GEOG 535 Soil Geography)
GEOG 338 River Systems

JUSTIFICATION:
These changes are meant to broaden the foundation in Physical Geography and reflect recent changes in the course curriculum.

b) New emphasis for the BS Biology Major – Teaching Biology

Proposal:
As part of the UKanTeach initiative, we are proposing a new Bachelor of Science emphasis within the BS Biology degree that will create a pathway for students to earn a biology degree and receive teaching licensure in Biology. This new Biology degree option is designed to be completed in four years, while enabling students to obtain a broad range of knowledge in the biological sciences and a teaching license.
UKanTeach is a partnership between the College of Liberal Arts and Sciences and the School of Education. It is the goal of UKanTeach to have approximately 50 KU math and science teachers graduating each year.

BS Teaching Biology curriculum requirements are listed on the attached degree plan.

Curriculum Requirements:
This program is designed to fulfill the requirements necessary for a Bachelor of Science in Biology. The program is also designed to fulfill the course requirements necessary to gain state licensure eligibility in biology to become a secondary teacher in Kansas, but completion of the program does not guarantee the student’s licensure. This checklist has been created as a guideline and is not considered to be an official document. For further information about meeting degree and additional licensure requirements, contact the UKanTeach Office.

**GENERAL REQUIREMENTS:** These courses must be taken on a letter-grade basis.

JUSTIFICATION:
We offer this Bachelor of Science in Teaching Biology as part of the UKanTeach initiative to educate and train teachers in the physical and biological sciences and mathematics. At this time, Kansas has a critical shortage of secondary science and mathematics teachers, and UKanTeach is designed to attract KU students to the teaching profession through degree plans such as the B.S. Teaching Biology option. Students completing the BS Teaching Biology requirements will receive a Bachelor of Science degree in the biological sciences and have the coursework necessary to be licensed to teach in the Kansas public school systems. The B.S. Teaching Biology curriculum is robust enough to allow flexibility in students’ career options while preparing them to be successful biology teachers in the public school classroom.

3. **Correction to New emphasis for the BS Geology Major – Earth & Space Science Licensure**
   This submission is to correct the original approved proposal, which indicated in both the humanities area and the research methods area that substitutes for the courses listed could be handled through UKanTeach. These substitutions must be approved by the academic unit. There is also an addition to the option for completing HIST 136, which may now include HIST 137. The corrected proposal should read:
Humanities: ONE Course, must be from the *Principal Course Distribution List* (see *Undergraduate Catalog*)
AND HIST 136 or HIST 137 (OR Equivalent Approved by UKanTeach department)
Admissions to the Majors

Rationale. Currently six departments have competitive or selective admissions to their majors (COMS, ENGL, PSYC, SOC, SPAN).

- Fairness to Students – selective admissions allow the department to clearly communicate to students the skills necessary to succeed in the major, and the department’s minimum standards of achievement in the core classes in which these skills are taught.
  - It is better for students to learn that they are not cut out for a major early. This gives them more time to pursue a different major. Currently students learn this rather later and are then scrambling to complete another major and graduate in a timely fashion.
- Fairness to Departments – all departments/units should be allowed to impose admissions criteria if they believe these will help students to select a major in which they will succeed (minimally defined as obtained > 2.0 GPA in junior/senior level coursework).
  - Widely held perception that departments without admissions requirements are lesser majors.
  - Departments not allowed to impose an admission standard may change their major course requirements in a manner designed to decrease the wide appeal of the major.

Draft Proposal:

- Allow all departments/units wishing to do so to impose non-competitive selective admission criteria to their majors.
- Criteria:
  - Department must identify 2-3 courses that teach the core skills required to succeed in the major.
  - Departments may require that students earn up to a 2.5 GPA in these identified courses.
    - If a student repeats a course, all grades received are used in calculating their criterion GPA.
      - Encourages students to take all attempts seriously.
      - Prevents students from repeating a course until they can meet the criterion GPA (graduate in 4).
    - Grades transferred from equivalent coursework would be used in calculating the criterion GPA.
  - Departments may not base admissions decisions on overall GPA.
- Departments currently imposing admissions standards would, for the sake of fairness (see above), be required to meet these standards.
  - This would affect COMS (competitive admissions).
  - This would affect SPAN (they require 30 hrs of KU coursework, a 2.0 overall GPA, and “successful” completion of two 300-level courses).
- Selective admissions criteria imposed by every department/unit would need to be reviewed by CUSA.
Non-Major BGS Issues for Discussion before the Proposal goes to CAC

- Dr. McNely’s proposal to simplify the degree for student consumption.
- Estimate of the number of students that might pursue the non-major BGS.
  - Number of students pursuing a major who have a junior/senior major GPA < 2.0.
  - Knowing this number will allow us to estimate the impact on the foreign language departments, Disabilities and Academic Services (students requesting assistance in passing foreign language coursework).
- Transferring Foreign Language Credits
  - Harvard requires their students have completed 4 years of high-school foreign language. They then require no more foreign language training.
  - Concerns were raised that community colleges are accepting high-school foreign language credits. If students come to KU after not studying foreign language for 2-3 years, they may score poorly on a proficiency exam.
  - Are we willing to accept...
    - 3 years of high-school foreign language as equivalent to 1 semester of KU foreign language requirement
    - 4 years of high-school foreign language as equivalent to 2 semesters of KU foreign language requirement
    - Students would receive no KU credits but would fulfill (or partially fulfill the foreign language requirement).
  - Is there any way to administer an online foreign language proficiency test (administered by high-school instructors) that would allow students planning to attend KU to meet the language requirements while they are still fluent with the language?

**Breadth Outcome**

- Allows overlap with disciplines of courses completed with BGS requirements resulting in exposure to 10 departments on average.
- Ensures breadth of electives from 3 – 5 departments
- As many as 36 hours from a single department (Anthropology), commonly 24 hours from single department.

- Ensures breadth from 15 departments, 5 beyond those explored through requirements above (on average 10 departments)
- Encourages early exploration, including alternative languages and lesser known disciplines
- Allows upper-division Principal Courses to contribute to 45 Jr/Sr hours required
