I. Welcome

II. Approval of CUSA Minutes from March 24, 2015

III. Dean’s Office Update

IV. SAS Office Update

V. Subcommittee Chair Reports
   A. Curricular Changes/Degree Requirements
      1. Curricular Changes for Approval:
         NEW COURSES: PHIL 369, PSYC 412, PSYC 533, REL 494, SLAV 330
         CHANGES: ATMO 505, ATMO 506, ATMO 521, ATMO 525, EALC 316, EVRN 538, EVRN 635, GEOG 521, GEOG 538, GEOG 635, HIST 308, POLS 301, POLS 302, POLS 306, POLS 320, POLS 501, POLS 608, POLS 610, POLS 611, POLS 645, POLS 670, POLS 672, POLS 673, POLS 674, POLS 675, POLS 684, POLS 685, SOC 132/335, SPLH 320/620, THR 498, THR 560, WGSS 650
         DELETIONS: N/A
      2. Degree Requirements for Approval:
         a. Changes to Existing BS Astronomy
         b. Changes to Existing BA East Asian Languages and Cultures
         c. Changes to Existing BA/BGS Speech-Language-Hearing AND Minor in Speech-Language-Hearing
         d. Changes to Existing BS Atmospheric Science AND Atmospheric Science Minor
         e. Changes to Existing BS Geography – Physical Geography Option
         f. Changes to Existing BS Geography – Geographic Information and Analysis Option
         g. New Minor – Visual Art
      3. KU Core Proposals:
         a. LA&S 494 – Goal 6
         b. HWC 240 – Goal 2, Learning Outcome 1
         c. GERM 130 – Goal 4, Learning Outcome 2
   B. Academic Policies and Awards
      None at this time

VI. Adjournment
COMMITTEE ON UNDERGRADUATE STUDIES AND ADVISING
Minutes of the Meeting for March 24, 2015

The committee met on Tuesday, March 24, 2015, at 11:15 a.m. in Room 210, Strong Hall. The following were present: Atchley, Bayer, Bradley, Cotton-Spreckelmeyer, Goldstein, Hilding, Holm, Kelly, Morris, Timm, Weis

Chair’s Welcome: Professor Atchley called the meeting to order.

Approval of CUSA Minutes: A motion was made to approve the March 10, 2015 meeting minutes of the Committee on Undergraduate Studies & Advising. The motion was seconded and passed.

Dean’s Office Update: Dr. Goldstein announced new Interim Dean Don Steeples.

SAS Office Update: CLAS SAS is busy with main enrollment advising. With regards to changes to the Double Degree policy, CLAS is waiting to hear if there are any objections to the policy change. A plan for communication will begin this week or next week. Changes will be reflected by the DPR in the summer.

Subcommittee Assignments:
A. Curricular Changes/Degree Requirements/ KU Core Proposals
   1. Curricular Changes Approved
      NEW COURSES: N/A
      CHANGES: N/A
      DELETIONS: N/A
   2. Degree Requirements for Approval:
      N/A
   3. KU Core Proposals
      N/A
   4. Other Business
      Professor Atchley initiated a preliminary conversation about the BGS degree, particularly in the context of how it facilitates or inhibits the ability to pursue a double degree (this having been a charge given by Dean Anderson.) An earlier proposal for changes to the BGS was tabled by CAC at the end of last year and has not yet been revisited.

      Currently the BGS requires either a second major or a minor. This creates a potential problem, in that the current language does not indicate that the second major or minor has to be in the College. If the second major is outside the College, no CLAS hours would be required beyond the KU Core and major requirements – perhaps too few College hours for a College degree.

      One possible option for keeping the BGS going forward would be to modify the degree to require multiple emphasis areas or certificates. Another option would be to resubmit the previous proposal submitted to CAC last spring, with or without changes. Members will come to the next CUSA meeting with thoughts on pros and cons of the previous BGS proposal as a starting point, hopefully after having discussed it in subcommittees. Issues of particular concern are: questions about the structure & intent of the BGS proposal, concerns about impact on Edwards Campus students, and individual departments that have a high percentage of BGS students.

B. Academic Policies and Awards
   N/A

Adjournment approximately 12:20 pm
Curricular Changes/Degree Requirements

1. Curricular Changes for Approval/Motion to File

**ATMOSPHERIC SCIENCE**

**CHANGE: PREREQUISITE**

**ATMO 505 WEATHER FORECASTING 3 N**

(OLD) A first course in synoptic meteorology designed to introduce students to weather analysis and forecasting through the application of hydrodynamic and thermodynamic principles to operational analysis and forecasting. Topics include analysis and interpretation of surface and upper-air observations and data from satellites, radars, and wind profilers; chart and sounding analysis; and three-dimensional, conceptual models of weather systems. The course includes student-led weather briefings and analysis exercises. Prerequisite: ATMO 105 and MATH 121 or MATH 115. LEC.

(NEW) A first course in synoptic meteorology designed to introduce students to weather analysis and forecasting through the application of hydrodynamic and thermodynamic principles to operational analysis and forecasting. Topics include analysis and interpretation of surface and upper-air observations and data from satellites, radars, and wind profilers; chart and sounding analysis; and three-dimensional, conceptual models of weather systems. The course includes student-led weather briefings and analysis exercises. Prerequisite: ATMO 105 and MATH 125 or MATH 115. LEC.

**ATMO 506 FORECASTING MODELS AND METHODS 3 N**

(OLD) Introduction to basic numerical weather prediction methods. Computer programs are used to apply numerical methods to weather data and to evaluate dynamical processes on numerical grids. Meteorological graphics packages are used to analyze current weather data and numerical model output. Current operational numerical models and output products are discussed. Prerequisite: ATMO 505, MATH 122, and EECS 138 or EECS 168. LEC.

(NEW) Introduction to basic numerical weather prediction methods. Computer programs are used to apply numerical methods to weather data and to evaluate dynamical processes on numerical grids. Meteorological graphics packages are used to analyze current weather data and numerical model output. Current operational numerical models and output products are discussed. Prerequisite: ATMO 505, MATH 126, and EECS 138 or EECS 168. LEC

**ATMO 521 MICROCLIMATOLOGY 3 N**

(OLD) A study of climatic environment near the earth-atmosphere interface. Consideration of rural climates in relation to agriculture and urban climates as influenced by air pollution and other factors. Emphasis is on physical processes in the lower atmosphere, distribution of atmospheric variables, the surface energy budget and water balance. (Same as GEOG 521.) Prerequisite: ATMO 105 and MATH 106 or MATH 121. LEC.

(NEW) A study of climatic environment near the earth-atmosphere interface. Consideration of rural climates in relation to agriculture and urban climates as influenced by air pollution and other factors. Emphasis is on physical processes in the lower atmosphere, distribution of atmospheric variables, the surface energy budget and water balance. (Same as GEOG 521.) Prerequisite: ATMO 105 and MATH 106 or MATH 125. LEC.

**ATMO 525 AIR POLLUTION METEOROLOGY 3 N**

(OLD) A study of background levels and concentrated sources of atmospheric pollution together with considerations of pollution buildup in urban areas as related to particular weather conditions.
Inadvertent weather modifications and effects of atmospheric pollution on particular weather events and general climate will be discussed. Prerequisite: ATMO 105, MATH 121, and EECS 138. LEC.

ATMO 525 AIR POLLUTION METEOROLOGY 3 N
A study of background levels and concentrated sources of atmospheric pollution together with considerations of pollution buildup in urban areas as related to particular weather conditions. Inadvertent weather modifications and effects of atmospheric pollution on particular weather events and general climate will be discussed. Prerequisite: ATMO 105, MATH 125, and EECS 138. LEC.

EAST ASIAN LANGUAGES & CULTURES

CHANGE: DESCRIPTION, TITLE
EALC 316 MODERN JAPANESE LITERATURE IN TRANSLATION 3 H W AE42
(OLD) A survey of major literary works of Japan's modern era through the Pacific War. Topics include the social and spiritual challenges of modernization, urbanization, and the issues of race and national identity. Works by Soseki, Ogai, Akutagawa, Tanizaki, Kawabata, and others will be covered. This course is offered at the 300 and the 700 levels, with additional assignments at the 700 level. Not open to students who have completed EALC 716. LEC. No prerequisites.

EALC 316 MODERN JAPANESE FICTION AND FILM 3 H W AE42
(NEW) A survey of major works of fiction and film in modern Japan. Topics include the social and spiritual challenges of modernization, urbanization, and the issues of race and national identity. Works by Akutagawa, Kawabata, Kurosawa, Ogai, Ozu, Soseki and Tanizaki and others are covered. Lectures, discussion, readings, and films in English. Knowledge of Japanese language is not required. This course is offered at the 300 and the 700 levels, with additional assignments at the 700 level. Not open to students who have completed EALC 716. LEC.

ENVIRONMENTAL STUDIES

CHANGE: PREREQUISITE
EVRN 538 SOIL CHEMISTRY 3 N
(OLD) This course examines the chemical properties and processes of soils and methods of evaluation. Topics include solid and solution speciation, mineral solubility, soil colloidal behavior, ion exchange, surface complexation, soil salinity and sodicity, soil acidity, oxidation-reduction reactions, and kinetics of soil chemical processes. (Same as GEOG 538.) Prerequisite: GEOG 335 or GEOG 535 or EVRN 335 or EVRN 535, CHEM 135 or CHEM 195, MATH 121, PHSX 114, or consent of the instructor. LEC.

EVRN 538 SOIL CHEMISTRY 3 N
(NEW) This course examines the chemical properties and processes of soils and methods of evaluation. Topics include solid and solution speciation, mineral solubility, soil colloidal behavior, ion exchange, surface complexation, soil salinity and sodicity, soil acidity, oxidation-reduction reactions, and kinetics of soil chemical processes. (Same as GEOG 538.) Prerequisite: GEOG 335 or GEOG 535 or EVRN 335 or EVRN 535, CHEM 135 or CHEM 195, MATH 125, PHSX 114, or consent of the instructor. LEC.

CHANGE: PREREQUISITE
EVRN 635 SOIL PHYSICS 3 N
(OLD) Provides theoretical and practical foundations for understanding physical properties and processes of variably-saturated porous media. Focus is on the transport, retention, and transformation of water, heat, gas, and solutes through the soil. We examine modern vadose zone measurement methods, analytical tools, and numerical models for data collection and interpretation. (Same as GEOG 635.) Prerequisite: GEOG 335 or EVRN 335; or GEOG 535 or EVRN 535, and MATH 121, PHSX 114; or consent of instructor. LEC.

EVRN 635 SOIL PHYSICS 3 N
(NEW) Provides theoretical and practical foundations for understanding physical properties and processes of variably-saturated porous media. Focus is on the transport, retention, and transformation of water, heat, gas, and solutes through the soil. We examine modern vadose zone measurement methods, analytical tools, and numerical models for data collection and interpretation. (Same as GEOG 635.)
Prerequisite: GEOG 335 or EVRN 335; or GEOG 535 or EVRN 535, and MATH 125, PHSX 114; or consent of instructor. LEC.

GEOGRAPHY

CHANGE: PREREQUISITE
GEOG 521 MICROCLIMATOLOGY 3 N
(OLD) A study of climatic environments near the earth-atmosphere interface. Consideration of rural climates in relation to agriculture and urban climates as influenced by air pollution and other factors. Emphasis is on physical processes in the lower atmosphere, distribution of atmospheric variables, the surface energy budget, and water balance. (Same as ATMO 521.) Prerequisite: ATMO 105 and MATH 106 or MATH 121. LEC.

(NEW) A study of climatic environments near the earth-atmosphere interface. Consideration of rural climates in relation to agriculture and urban climates as influenced by air pollution and other factors. Emphasis is on physical processes in the lower atmosphere, distribution of atmospheric variables, the surface energy budget, and water balance. (Same as ATMO 521.) Prerequisite: ATMO 105 and MATH 106 or MATH 125. LEC.

GEOG 538 SOIL CHEMISTRY 3 N
(OLD) This course examines the chemical properties and processes of soils and methods of evaluation. Topics include solid and solution speciation, mineral solubility, soil colloidal behavior, ion exchange, surface complexation, soil salinity and sodicity, soil acidity, oxidation-reduction reactions, and kinetics of soil chemical processes. (Same as EVRN 538.) Prerequisite: GEOG 335 or GEOG 535 or EVRN 335 or EVRN 535, CHEM 135 or CHEM 195, MATH 121, PHSX 114, or consent of the instructor. LEC.

(NEW) This course examines the chemical properties and processes of soils and methods of evaluation. Topics include solid and solution speciation, mineral solubility, soil colloidal behavior, ion exchange, surface complexation, soil salinity and sodicity, soil acidity, oxidation-reduction reactions, and kinetics of soil chemical processes. (Same as EVRN 538.) Prerequisite: GEOG 335 or GEOG 535 or EVRN 335 or EVRN 535, CHEM 135 or CHEM 195, MATH 125, PHSX 114, or consent of the instructor. LEC.

GEOG 635 SOIL PHYSICS 3 N
(OLD) Provides theoretical and practical foundations for understanding physical properties and processes of variably-saturated porous media. Focus is on the transport, retention, and transformation of water, heat, gas, and solutes through the soil. We examine modern vadose zone measurement methods, analytical tools, and numerical models for data collection and interpretation. (Same as EVRN 635.) Prerequisite: GEOG 335 or EVRN 335, or GEOG 535 or EVRN 535, and MATH 121, PHSX 114; or consent of instructor. LEC.

(NEW) Provides theoretical and practical foundations for understanding physical properties and processes of variably-saturated porous media. Focus is on the transport, retention, and transformation of water, heat, gas, and solutes through the soil. We examine modern vadose zone measurement methods, analytical tools, and numerical models for data collection and interpretation. (Same as EVRN 635.) Prerequisite: GEOG 335 or EVRN 335, or GEOG 535 or EVRN 535, and MATH 125, PHSX 114; or consent of instructor. LEC.

HISTORY
CHANGE: COURSE DESCRIPTION
HIST 308 KEY THEMES IN MODERN GLOBAL HISTORY 3 H
(OLD) A comparative historical analysis of major global developments from the late 15th century to the present. Some of the themes likely to be explored are empire-building, contact between cultures and colonial social relations; the attraction of cities, their role in a global economy and the shift to an urban world; and the impact of capitalism and industrialization on social organization including conflict between classes and changes in the nature of work. Students learn ways of interpreting primary historical documents and comparing historical investigations across time and space. Not open to students who have completed HIST 100. LEC.

HIST 308 KEY THEMES IN MODERN GLOBAL HISTORY 3 H
(NEW) A comparative historical analysis of major global developments from the late 15th century to the present. Some of the themes likely to be explored are empire-building, contact between cultures and colonial social relations; the attraction of cities, their role in a global economy and the shift to an urban world; and the impact of capitalism and industrialization on social organization including conflict between classes and changes in the nature of work. Students learn ways of interpreting primary historical documents and comparing historical investigations across time and space. LEC.

PHILOSOPHY
CHANGE: NEW COURSE
PHIL 369 MORAL ISSUES IN WARFARE 3 H
This course is a philosophical investigation of the nature and ethical dimensions of warfare and the use of force. It provides students with an overview of ethical theory and considers answers to questions about the principles of just war theory, the values served by these principles, and about how those values can be sustained or demeaned. Students debate a variety of live controversies in warfare today such as just causes for war, when threats ought to be deemed imminent, collateral damage and the nature of non-civilians on the battlefield, and terrorism. LEC.

POLITICAL SCIENCE
CHANGE: DESCRIPTION, PREREQUISITE
POLS 301 INTRODUCTION TO POLITICAL THEORY 3.0 S GE3S
(OLD) An examination of the perennial issues and major concepts in political philosophy. Ideas such as community, liberty, equality, justice, and democracy will be examined in order to understand the various meanings given to these concepts in political discourse and to understand the role to these ideas in various political theories. Prerequisite: Either POLS 110 or POLS 150 or POLS 170, or their honors equivalents. LEC.

POLS 301 INTRODUCTION TO POLITICAL THEORY 3.0 S GE3S
(NEW) An examination of the perennial issues and major concepts in political philosophy. Ideas such as community, liberty, equality, justice, and democracy are examined in order to understand the various meanings given to these concepts in political discourse and to understand the role of these ideas in various political theories. LEC

CHANGE: DESCRIPTION, PREREQUISITE
POLS 302 INTRODUCTION TO POLITICAL THEORY, HONORS 3.0 S GE3S
(OLD) Prerequisite: Either POLS 110, POLS 150, or POLS 170, or their honors equivalents and open only to students in the College Honors Program, or by consent of instructor. LEC.

POLS 302 INTRODUCTION TO POLITICAL THEORY, HONORS 3.0 S GE3S
(NEW) Honors Version of POLS 301. An examination of the perennial issues and major concepts in political philosophy. Ideas such as community, liberty, equality, justice, and democracy are examined in order to understand the various meanings given to these concepts in political discourse and to understand the role of these ideas in various political theories. Prerequisite: Open only to students in the University Honors Program.
**CHANGE: PREREQUISITE**

**POLS 306**  
POLITICAL SCIENCE METHODS OF INQUIRY  3.0  S GE12  
An introduction to the social science methods of investigation and analysis that are used in political science as a discipline and, in many cases, in public and private sector analytical work as well. The nature of political science data sources and methods of data collection, the logic of social scientific inquiry, and key methods of data analysis are emphasized. Prerequisite: POLS 110 and POLS 150 and POLS 170 (or their Honors equivalents), or consent of instructor. LEC.

**POLS 306**  
POLITICAL SCIENCE METHODS OF INQUIRY  3.0  S GE12  
An introduction to the social science methods of investigation and analysis that are used in political science as a discipline and, in many cases, in public and private sector analytical work as well. The nature of political science data sources and methods of data collection, the logic of social scientific inquiry, and key methods of data analysis are emphasized. Prerequisite: POLS 110 or POLS 150 or POLS 170 (or their Honors equivalents), or consent of instructor. LEC.

**CHANGE: PREREQUISITE**

**POLS 320**  
INTRODUCTION TO PUBLIC POLICY  3.0  S GE3S  
Offers an introduction to the policy-making process covering policy formulation, adoption, and implementation. Overview of major theories of the policy-making process, the actors involved in the process, and the constraints and enhancements offered by the broader political environment. The theoretical frameworks are applied to several substantive policy areas. Prerequisite: POLS 110. LEC.

**POLS 320**  
INTRODUCTION TO PUBLIC POLICY  3.0  S GE3S  
Offers an introduction to the policy-making process covering policy formulation, adoption, and implementation. Overview of major theories of the policy-making process, the actors involved in the process, and the constraints and enhancements offered by the broader political environment. The theoretical frameworks are applied to several substantive policy areas. LEC.

**CHANGE: PREREQUISITE**

**POLS 501**  
CONTEMPORARY POLITICAL THOUGHT  3.0  S  
An examination of the major theoretical questions concerning citizenship and government in modern society. Major ideologies and important contemporary philosophers are examined to determine how they address such issues as the meaning of the public interest, the just distribution of power and privilege, the proper role of government in society, and legitimate methods for making collective decisions. Prerequisite: POLS 301, or (for non-majors) completion of the Western Civilization requirement, or consent of instructor. LEC.

**POLS 501**  
CONTEMPORARY POLITICAL THOUGHT  3.0  S  
An examination of the major theoretical questions concerning citizenship and government in modern society. Major ideologies and important contemporary philosophers are examined to determine how they address such issues as the meaning of the public interest, the just distribution of power and privilege, the proper role of government in society, and legitimate methods for making collective decisions. Prerequisite: POLS 301, or consent of instructor. LEC.

**CHANGE: PREREQUISITE**

**POLS 608**  
SOCIAL CHOICE AND GAME THEORY  3  S  
A survey of the political economic approach to individual and collective choice behavior called "rational choice." The course focuses on models of voting systems and other political institutions as seen from a game theoretic perspective. Prerequisite: Nine hours of political science and completion of the College of Liberal Arts and Sciences mathematics requirement for the B.A. degree. LEC.

**POLS 608**  
SOCIAL CHOICE AND GAME THEORY  3  S  
A survey of the political economic approach to individual and collective choice behavior called "rational choice." The course focuses on models of voting systems and other political institutions as seen from a game theoretic perspective. Prerequisite: Junior level or consent of instructor. LEC.

**CHANGE: PREREQUISITE**

**POLS 610**  
CONSTITUTIONAL LAW: GOVERNMENT POWERS  3.0  S  
The Supreme Court viewed as a political branch of our government. Special emphasis on the Court’s role in determining powers of government and their relationships. Prerequisite: POLS 110. LEC.
POLS 610  CONSTITUTIONAL LAW: GOVERNMENT POWERS  3.0 S  
(NEW) The Supreme Court viewed as a political branch of our government. Special emphasis on the Court's role in determining powers of government and their relationships. Prerequisite: Junior level or consent of instructor.  LEC

CHANGE: PREREQUISITE

POLS 611  CONSTITUTIONAL LAW: CIVIL LIBERTIES  3.0 S  
(OLD) The constitutional limits on governmental powers are studied with special emphasis on constitutional guarantees of individuals freedom. Prerequisite: POLS 110. POLS 610 is recommended. LEC.

POLS 611  CONSTITUTIONAL LAW: CIVIL LIBERTIES  3.0 S  
(NEW) The constitutional limits on governmental powers are studied with special emphasis on constitutional guarantees of individuals freedom. Prerequisite: Junior Level or consent of instructor.  LEC

CHANGE: PREREQUISITE

POLS 645  CORRUPTION, CRISIS AND SCANDAL  3.0 S  
(OLD) This course investigates political events and decisions that are considered illegal or illegitimate. Cases from the U.S. and around the world are considered. Issues discussed include the misuse of governmental power and funds, electoral fraud, and bribery. Conditions under which problems arise and reforms that address them are considered. Prerequisite: POLS 110 and POLS 150. LEC.

POLS 645  CORRUPTION, CRISIS AND SCANDAL  3.0 S  
(NEW) This course investigates political events and decisions that are considered illegal or illegitimate. Cases from the U.S. and around the world are considered. Issues discussed include the misuse of governmental power and funds, electoral fraud, and bribery. Conditions under which problems arise and reforms that address them are considered. Prerequisite: Junior level or consent of instructor.  LEC

CHANGE: PREREQUISITE

POLS 670  UNITED STATES FOREIGN POLICY  3.0 S  
(OLD) An evaluation of the formulation of United States foreign policy in the post-World War II period. Economic, military, and diplomatic dimensions of policy; internal and external influences on policy; theories of foreign policy decision-making. Prerequisite: Nine hours of political science, including POLS 170. LEC.

POLS 670  UNITED STATES FOREIGN POLICY  3.0 S  
(NEW) An evaluation of the formulation of United States foreign policy in the post-World War II period. Economic, military, and diplomatic dimensions of policy; internal and external influences on policy; theories of foreign policy decision-making. Prerequisite: Nine hours of political science.  LEC

CHANGE: PREREQUISITE

POLS 672  INTERNATIONAL POLITICAL ECONOMY  3.0 S  
(OLD) Structural theories of the international political economy provide the framework for a consideration of the nature of hegemony, the management problem of multinational corporations, the role of international regimes and organizations, development, and dependency. Prerequisite: Nine hours of political science, including POLS 170. LEC. Structural theories of the international political economy provide the framework for a consideration of the nature of hegemony, the management problem of multinational corporations, the role of international regimes and organizations, development, and dependency. Prerequisite: Nine hours of political science, including POLS 170. LEC.

POLS 672  INTERNATIONAL POLITICAL ECONOMY  3.0 S  
(NEW) Structural theories of the international political economy provide the framework for a consideration of the nature of hegemony, the management problem of multinational corporations, the role of international regimes and organizations, development, and dependency. Prerequisite: Junior level or consent of instructor.  LEC

CHANGE: PREREQUISITE

POLS 673  INTERNATIONAL ORGANIZATION  3.0 S  
(OLD) International organizations are examined with special emphasis devoted to the United Nations. A central theme of the course rests upon the question of whether strengthened international organization
offers the only alternative to further world wars. Prerequisite: POLS 170 and three additional hours of political science. LEC.

POLS 673 INTERNATIONAL ORGANIZATION 3.0 S
International organizations are examined with special emphasis devoted to the United Nations. A central theme of the course rests upon the question of whether strengthened international organization offers the only alternative to further world wars. Prerequisite: Junior level or consent of instructor. LEC

CHANGE: PREREQUISITE
POLS 674 INTERNATIONAL ETHICS 3.0 H
This course reviews how philosophical perspectives elucidate the role ethics plays in foreign policy. It covers human rights doctrines, issues of economic and political justice, just war theory (jus ad bellum) and just conduct of war (jus en bello) and humanitarian intervention. Prerequisite: POLS 170 or POLS 171. LEC

POLS 674 INTERNATIONAL ETHICS 3.0 H
This course reviews how philosophical perspectives elucidate the role ethics plays in foreign policy. It covers human rights doctrines, issues of economic and political justice, just war theory (jus ad bellum) and just conduct of war (jus en bello) and humanitarian intervention. Prerequisite: Junior level or consent of instructor. LEC

CHANGE: PREREQUISITE
POLS 675 RUSSIAN FOREIGN POLICY 3.0 S  W
Examination of the history of Soviet and Russian foreign policy and current issues of foreign policy in the Post-Soviet era. Analysis of foreign policy making in Russia and the other Post-Soviet states. Emphasis on the changed nature of international security problems after the cold war and on the role of foreign policy in economic development. Prerequisite: Eight hours in the social sciences or history, including either POLS 170 or a course in Russian history. LEC.

POLS 675 RUSSIAN FOREIGN POLICY 3.0 S  W
Examination of the history of Soviet and Russian foreign policy and current issues of foreign policy in the Post-Soviet era. Analysis of foreign policy making in Russia and the other Post-Soviet states. Emphasis on the changed nature of international security problems after the cold war and on the role of foreign policy in economic development. Prerequisite: Junior level or consent of instructor. LEC

CHANGE: PREREQUISITE
POLS 684 INTERNATIONAL LAW: THE STATE AND THE INDIVIDUAL 3.0 S
International law has assumed an increasingly significant role in international life. This course will examine major law including (but not limited to): the changing status and role of the state; rights of minorities and self-determination; the environment; and human rights. The course will examine the central questions and the relevant international legal principles associated with each issue. Prerequisite: Six hours of Political Science, including POLS 170. LEC.

POLS 684 INTERNATIONAL LAW: THE STATE AND THE INDIVIDUAL 3.0 S
International law has assumed an increasingly significant role in international life. This course examines major law including (but not limited to): the changing status and role of the state; rights of minorities and self-determination; the environment; and human rights. The course examines the central questions and the relevant international legal principles associated with each issue. Prerequisite: Junior level or consent of instructor. LEC

CHANGE: PREREQUISITE
POLS 685 INTERNATIONAL LAW: LAWS OF ARMED CONFLICTS 3.0 S
This course examines the principles, roles, and functions of international law in the conduct of war. As the course reviews the development and application of the basic rules of armed conflict, several current issues and conflicts are addressed including: the legitimate use of force; the proper definitions of combatants and civilians; actions that constitute war crimes, the legality of new weapons technology, and, if the laws of armed conflict apply to the current "war on terrorism." Prerequisite: Six hours of Political Science, including POLS 170. LEC.
POLS 685 INTERNATIONAL LAW: LAWS OF ARMED CONFLICTS 3.0 S
(NEW) This course examines the principles, roles, and functions of international law in the conduct of war. As the course reviews the development and application of the basic rules of armed conflict, several current issues and conflicts are addressed including: the legitimate use of force; the proper definitions of combatants and civilians; actions that constitute war crimes, the legality of new weapons technology, and, if the laws of armed conflict apply to the current "war on terrorism." Prerequisite: Junior level or consent of instructor. LEC

PSYCHOLOGY

CHANGE: NEW COURSE
PSYC 412 INTRODUCTION TO MOTIVATION AND EMOTION 3 S
An examination of contemporary issues, theories, and research in motivation. Prerequisite: PSYC 360/361, or consent of instructor.

CHANGE: NEW COURSE
PSYC 533 THE PSYCHOLOGY OF ADDICTIVE BEHAVIORS 3 S
This course provides a comprehensive review of psychological theories and interventions for addressing addictive behaviors. Emphasis is placed on clinical processes. Prominent models are presented for conceptualizing addictive behaviors, along with clinical treatments based on these models. Specific topics covered include: screening for and diagnosing addictive behaviors, brief psychological interventions, understanding addiction as a syndrome, stages of change, empirically-supported treatments, evidence-based practice, relapse prevention, harm reduction, addressing common co-existing disorders, and community services. Prerequisite: PSYC 104.

RELIGIOUS STUDIES

CHANGE: NEW COURSE
REL 494 RESEARCH INTERNSHIP 3 H
Practical research experience in Religious Studies gained by assisting a faculty member on a faculty research, editorial, pedagogical, or outreach project. Credit hours are graded by faculty on a satisfactory/unsatisfactory basis. May be used as a component of the Research Experience Program (REP). Prerequisite: permission of the instructor.

SLAVIC LANGUAGES & LITERATURES

CHANGE: NEW COURSE
SLAV 330 RUSSIAN BUSINESS CULTURE 3 H
The course examines how geography, history, and traditions of Russia impact its contemporary business practices. It addresses influence of Russian culture on business communication (verbal and nonverbal), relationship building, the role of manager, the functioning of teams, negotiation, and decision making. Topics also include cultural aspects of relationship between businesses and the state, entrepreneurialism, advertising, and consumerism. Students examine business practices that foreign businessmen encounter in Russia. LEC

SOCIOLOGY

CHANGE: NUMBER
SOC 132 AMERICAN SOCIETY, HONORS 3 S, SC, AE41
(OLD) The social structure and organization of American society with special reference to long-term and recent social changes. Not open to students who have credit for AMS 330 or SOC 330. Open to College honors students, students on the dean's honor roll, and by permission of the department. LEC.

SOC 335 AMERICAN SOCIETY, HONORS 3 S, SC, AE41
(NEW) The social structure and organization of American society with special reference to long-term and recent social changes. Not open to students who have credit for AMS 330 or SOC 330. Open to
students in the University Honors Program, students on the dean's honor roll, and by permission of the department. LEC.

SPEECH, LANGUAGE & HEARING

CHANGE: NUMBER, PREREQUISITE
SPLH 320 THE COMMUNICATING BRAIN: THE ULTIMATE PERSONAL COMPUTER 3 U
(OLD) This course introduces the study of human neuroscience with a particular focus on human communication. The course provides an overview of the relevant anatomical structures and function along with an introduction to the basic methods used to investigate central nervous system function. Students are introduced to the study of perceptual, motor, and language function in the nervous system through a series of examples drawn from normal function and clinical cases. The examples are selected to highlight how these systems develop and are influenced by experience, implantable devices developed to interface with the nervous system, and how computers and animals are used as models to learn about nervous system function. LEC

SPLH 620 THE COMMUNICATING BRAIN: THE ULTIMATE PERSONAL COMPUTER 3 U
(NEW) This course introduces the study of human neuroscience with a particular focus on human communication. The course provides an overview of the relevant anatomical structures and function along with an introduction to the basic methods used to investigate central nervous system function. Students are introduced to the study of perceptual, motor, and language function in the nervous system through a series of examples drawn from normal function and clinical cases. The examples are selected to highlight how these systems develop and are influenced by experience, implantable devices developed to interface with the nervous system, and how computers and animals are used as models to learn about nervous system function. Prerequisite: A 400-level course in SPLH, or consent of instructor. LEC

THEATER

CHANGE: DESCRIPTION, PREREQUISITE, TITLE, CREDIT
THR 498 HONORS SEMINAR 2-6 H AE61
(OLD) Study may be directed toward either (1) reading for integration of knowledge and insight in theatre or (2) original research that investigates a specific problem in theatre. Prerequisite: Consent of Departmental Honors Committee. IND

THR 498 HONORS DIRECTED STUDY IN THEATRE 3 H AE61
(NEW) Individual creation of an original product that integrates theatre knowledge and skills. Selected in advance with advice, approval, and supervision by an instructor. Prerequisite: Consent of instructor, senior level status, and 3.5 GPA in Theatre and 3.25 GPA overall at the time of enrollment. IND

CHANGE: NEW COURSE
THR 560 Collaborative Production – 3 Hours – H - NEW COURSE
Seniors collaborate as a theatre company to create an original production that integrates several of the following areas: improvisation, playwriting, acting, directing, dramaturgy, design, technical production, and stage management. Collaboration of group project approved in advance with advice, approval, and supervision by at least one instructor. Prerequisite: Senior level and consent of at least one instructor.

WOMEN, GENDER & SEXUALITY STUDIES

CHANGE: DESCRIPTION, TITLE
WGSS 650 Service Learning in Women's Studies – 3 Hours – S - DESCRIPTION TITLE
(OLD) This course, to be taken in the senior year, is designed to give students the opportunity to apply women's studies knowledge and ideas gained through course work to real-life situations in various agencies and women's centers. Open to Women's Studies majors and others with significant Women's Studies backgrounds. Permission of instructor is required. FLD
This course, to be taken in the senior year, is designed to give students the opportunity to apply women, gender and sexuality studies knowledge and ideas gained through course work to real-life situations in various agencies and women's centers. Open to Women, Gender and Sexuality Studies majors and others with significant Women, Gender and Sexuality Studies backgrounds. Permission of instructor is required. FLD
2. Degree Requirements for Approval

   a. Changes to Existing BS Astronomy

Bachelor of Science in Astronomy Excerpt of Requirements – Change to existing major

Justification: During the processing of blanket changes to address the new calculus sequence, the changes to MATH 223 were inadvertently omitted from the BS in Astronomy.

First- and Second-Year Preparation

All major programs in physics and astronomy share requirements in basic physics and mathematics including PHSX 150, a seminar course for majors. Completion of MATH 125 and MATH 126 in the first year allows students to start calculus-based physics foundation courses (PHSX 211 and PHSX 216 or PHSX 213, followed by PHSX 212 and PHSX 236 or PHSX 214) by the second semester. Majors are encouraged to take PHSX 213 and PHSX 214, the honors versions of PHSX 211/PHSX 216 and PHSX 212/PHSX 236. Students should take these courses and ASTR 391 in their first two years. B.S. astronomy majors normally complete additional course work in mathematics (MATH 223, MATH 127, MATH 290, and MATH 320), as well as PHSX 313 and PHSX 316, in the second year.

Requirements for the B.S. Degree in Astronomy

All students pursuing the Bachelor of Science in Astronomy must complete the KU Core requirements in addition to the degree and major requirements. For details regarding the KU Core requirements, please see the KU Core section of the catalog.

General science requirements (24.5-37.5)
Majors must complete courses as specified in each of the following areas. Majors are advised to take honors courses when eligible. These hours do not contribute to the minimum number of hours required for the major.

Computing and Programming. Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>EECS 138</td>
<td>Introduction to Computing: _____</td>
<td>3</td>
</tr>
<tr>
<td>EECS 168</td>
<td>Programming I</td>
<td>4</td>
</tr>
</tbody>
</table>

Calculus I. Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 125</td>
<td>Calculus I</td>
<td>4</td>

</tr>
</tbody>
</table>
Foundations of Chemistry I. Satisfied by one of the following:

- CHEM 130 General Chemistry I
- CHEM 190 Foundations of Chemistry I, Honors

Advanced Mathematics Core Knowledge and Skills (11)

Vector Calculus. Calculus III Satisfied by the following:

- MATH 222 MATH 127 Calculus III

Elementary Linear Algebra. Satisfied by the following:

- MATH 290 Elementary Linear Algebra

Elementary Differential Equations. Satisfied by the following:

- MATH 320 Elementary Differential Equations

Math Elective. Satisfied by one of the following:

- PHSX 518 Mathematical Physics
- PHSX 718 Mathematical Methods in Physical Sciences
- MATH 526 Applied Mathematical Statistics I
- MATH 530 Mathematical Models
- MATH 558 Introductory Modern Algebra
- MATH 581 Numerical Methods
- MATH 590 Linear Algebra
- MATH 628 Mathematical Theory of Statistics
- MATH 646 Complex Variable and Applications
- MATH 647 Applied Partial Differential Equations
- MATH 648 Calculus of Variations and Integral Equations
- MATH 660 Geometry I
- MATH 661 Geometry II

any 700-level MATH lecture course except MATH 701 and MATH 715.

Astronomy Requirements for Major (18-21)

Majors must complete the following seven courses:

- ASTR 391 Physical Astronomy, Honors
- ASTR 591 Stellar Astronomy
- ASTR 592 Galactic and Extragalactic Astronomy
- ASTR 596 Observational Astrophysics
- ASTR 691 Astrophysics I
- ASTR 692 Astrophysics II
- ASTR 503 Undergraduate Research

Physics Core Knowledge and Skills (30)

Majors must complete courses as indicated in the following areas:

General Physics III. Satisfied by the following:

- PHSX 313 General Physics III

Intermediate Physics Lab. Satisfied by the following:

- PHSX 316 Intermediate Physics Laboratory I

Introductory Quantum Mechanics. Satisfied by the following:

- PHSX 511 Introductory Quantum Mechanics

Physical Measurements or Electronic Circuit Measurement and Design. Satisfied by one of the following:
Physical Measurements 4
Electronic Circuit Measurement and Design 4
Mechanics I. Satisfied by the following:
Mechanics I 3
Electricity and Magnetism. Satisfied by the following:
Electricity and Magnetism 3
Thermal Physics. Satisfied by the following:
Thermal Physics 3
Physics Elective. Satisfied by any PHSX lecture or laboratory course numbered 500 or higher (PHSX 693 recommended) (with the exception of PHSX 594), including:
Topics in Advanced Astrophysics 3
Space Plasma Physics
Space Plasma Physics
Geophysics
Gravitation and Cosmology (recommended)

Major Hours & Major GPA

While completing all required courses (above), majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 30 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior(300+) Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

Major Junior/Senior (300+) Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator.

RATIONALE FOR CHANGE:
This change from MATH 223 to MATH 127 was missed in the batch changes related to the new calculus course sequence.

b. Changes to Existing BA East Asian Languages and Cultures

Changes to Existing Major to BA East Asian Languages & Cultures

Summary of Changes:
1. EALC 345/545 has previously been taught as a topics course, and we would like to make it a permanent addition to several concentration areas.
2. We would like to note the 500-level versions of 318 and 319 in our list of course requirements.
3. The title for EALC 316 is changing – this updates that information.

Requirements for the B.A. Major

Chinese Literature or Culture in Translation. Satisfied by one course, e.g.:
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EALC 314</td>
<td>Traditional Chinese Literature in Translation</td>
</tr>
<tr>
<td>EALC 318/518</td>
<td>Modern Chinese Fiction and Film</td>
</tr>
<tr>
<td>EALC 319/519</td>
<td>Contemporary Chinese Fiction and Film</td>
</tr>
<tr>
<td>EALC 330/530</td>
<td>Chinese Literature and Culture: Premodern Times</td>
</tr>
<tr>
<td>EALC 345/545</td>
<td>Chinese Cinema</td>
</tr>
<tr>
<td>EALC 370</td>
<td>Chinese Folk Belief</td>
</tr>
<tr>
<td>EALC 418/618</td>
<td>Sexual Politics in Chinese Literature and Culture: Premodern Times</td>
</tr>
<tr>

</tr>
</tbody>
</table>

Japanese Language and Literature Concentration

East Asian Languages and Cultures Required Elective (0)
Majors choosing this concentration must complete a course in each of the following areas (a course cannot be used in more than 1 area):
Pre-Modern Japanese Literature in Translation. Satisfied by one course, e.g.:
- EALC 312  Traditional Japanese Literature in Translation
- EALC 575  Love, Sexuality and Gender in Japanese Literature

Modern Japanese Literature in Translation. Satisfied by one course, e.g.:
- EALC 316  Modern Japanese Literature in Translation: 1868-1945
- EALC 317  Contemporary Japanese Literature in Translation: 1945-Present
- EALC 328  The Body in Japan
- EALC 412  Visual and Literary Culture in Modern Japan

Modern Japan. Satisfied by one course on modern Japan, e.g.:
- EALC 316  Modern Japanese Literature in Translation: 1868-1945
- EALC 317  Contemporary Japanese Literature in Translation: 1945-Present
- EALC 328  The Body in Japan
- EALC 543  Contemporary Japanese Film
- EALC 588  Japan, 1853-1945
- EALC 589  Japan Since 1945
- EALC 499  Honors Thesis

East Asian Studies with Japanese Language Concentration

Modern Japan. Satisfied by one course on modern Japan, e.g.:
PROPOSAL We requested a change in course number from SPLH 320 to SPLH 620. Therefore we are requesting an accompanying change in the requirements for the major and minor to reflect this number change.

Requirements for the B.A. or B.G.S. Major - Excerpt

Speech-Language-Hearing Prerequisite or Co-Requisite Requirements (0)

Majors must complete this requirement, however, these hours do not contribute to the minimum number of hours required for the major.

Mathematics. Satisfied by one of the following:

- MATH 101 College Algebra
- MATH 104 Precalculus Mathematics

Or upper-level placement

Statistics. An introductory statistics course (PSYC 210, MATH 365) is recommended.

Speech-Language-Hearing Introductory Knowledge (17)

Majors must complete a course in the following areas (recommended within first and second year):

The Physics of Speech. Satisfied by:

- SPLH 120 The Physics of Speech 4

Survey Communication Disorders. Satisfied by:

- SPLH 261 Survey of Communication Disorders 3

The Communicating Brain: The Ultimate Personal Computer. Satisfied by:
The Communicating Brain: The Ultimate Personal Computer 3
Language Science. Satisfied by:
Language Science 3
Fundamentals of Clinical Phonetics. Satisfied by:
Fundamentals of Clinical Phonetics 1
Principles of Hearing Science. Satisfied by:
Principles of Hearing Science 3
Speech-Language-Hearing Core Knowledge and Skills (18)

Requirements for the Minor
Speech-Language-Hearing Minor Course Requirements (15)
Students selecting this minor must complete the following:
Survey Communication Disorders. Satisfied by:
Survey of Communication Disorders 3
Speech-Language-Hearing Required Electives. Satisfied by at least 4 SPLH courses (12 hours) from the following: 12
The Physics of Speech
The Communicating Brain: The Ultimate Personal Computer
Principles of Speech Science
Principles of Hearing Science
Undergraduate Seminar in: _____
Fundamentals of Clinical Phonetics
Language Science
Directed Study in Speech-Language-Hearing
Language Sample Analysis Lab
Language Development
Research Methods in Speech-Language-Hearing
Courses with clinical content can be taken as directed study with the permission and support of a faculty mentor.

d. Changes to Existing BS Atmospheric Science AND Atmospheric Science Minor

PROPOSAL
1. Due to recent approval of a new course (PHSX 202) and the approval previously of PHSX 201, we would like to update our BS in Atmospheric Science and the minor in Atmospheric Science to reflect the additional option to complete the physics requirement.

2. Also, due the recent changes in the calculus sequence we would like to update those requirements as well.

The current requirement for B.S. in Atmospheric Science (all concentrations) under Preparation for the major:
PHSX 211 and 216 and PHSX 212 and 236
will be changed to:
PHSX 211 or PHSX 114 and 201
PHSX 216
PHSX 212 or PHSX 115 and 202
PHSX 236

The current requirement for B.S. in Atmospheric Science (all concentrations) under Preparation for the major:
MATH 121 or 141; MATH 122 or 142
will be changed to:
MATH 125 or 145; MATH 126 or 146
The current requirement for the Atmospheric Science Minor:
- PHSX 211 and 216 and PHSX 212 and 236

will be changed to:
- PHSX 211 or PHSX 114 and 201
- PHSX 216
- PHSX 212 or PHSX 115 and 202
- PHSX 236

JUSTIFICATION
As options, those changes will accommodate the students who may have already taken PHSX 114 and PHSX 116. We still recommend students to take PHSX 211 and 212 instead of the alternatives.

Requirements for the B.S. Degree in Atmospheric Science

EXCERPT

Atmospheric Science Prerequisite or Co-requisite Knowledge (36-38)
Majors must complete courses as specified in each of the following areas. Majors are advised to take honors courses when eligible. These hours do not contribute to the minimum number of hours required for the major.

Computing and Programming. Satisfied by:
- **EECS 138**  
  Introduction to Computing: _____ (Fortran preferred; C++ and Matlab accepted)  
  3

Scientific Principles of Environmental Studies. Satisfied by:
- **EVRN 148**  
  Scientific Principles of Environmental Studies  
  3

Calculus I. Satisfied by:
- **MATH 121-MATH 125**  
  Calculus I (or equivalent)  
  4
- **MATH 141-MATH 145**  
  Calculus I: Honors

Calculus II. Satisfied by one of the following:
- **MATH 122-MATH 126**  
  Calculus II (or equivalent)  
  4
- **MATH 142-MATH 146**  
  Calculus II: Honors

General Physics I. Satisfied by one of the following:
- **PHSX 211 Or PHSX 114 and 201 & PHSX 216**  
  General Physics I  
  and General Physics I Laboratory

**PHSX 213**  
General Physics I Honors

General Physics II. Satisfied by one of the following:
- **PHSX 212 Or PHSX 115 and 202 & PHSX 236**  
  General Physics II  
  and General Physics II Laboratory  
  3
- **PHSX 214**  
  General Physics II Honors

Concentration in Business

An undergraduate student may graduate from the School of Business with a concentration in atmospheric science.

Atmospheric Science Prerequisite or Co-requisite Knowledge (19-22)
Student selecting this minor must complete courses as specified in each of the following areas. Majors are advised to take honors courses when eligible. These hours do not contribute to the minimum number of hours required for the major.

Computing and Programming. Satisfied by:
- **EECS 138**  
  Introduction to Computing: _____  
  3

Calculus I. Satisfied by:
Requirements for the Minor in Atmospheric Science

EXCERPT
Student selecting this minor must complete courses as specified in each of the following areas:

Atmospheric Science Prerequisite or Co-requisite Knowledge (11-15)

Calculus I. Satisfied by:

- MATH 121-MATH 125 Calculus I (or equivalent) 4
  or MATH 141-MATH 145 Calculus I: Honors

Calculus II. Satisfied by:

- MATH 122-MATH 126 Calculus II (or equivalent) 4
  or MATH 142-MATH 146 Calculus II: Honors

General Physics I. Satisfied by:

- PHSX 211 Or PHSX 114 and 201 General Physics I 1-5
  or PHSX 213 General Physics I Honors

Changes to Existing BS Geography – Physical Geography Option

PROPOSAL

Bachelor of Science in Geography: Physical Geography Option

Current Requirements:
Preparation for the major
MATH 121 and MATH 122 (recommended) or MATH 115 and MATH 116
PHSX 211 and PHSX 212 (recommended) or PHSX 114 and PHSX 115
BIOL 152 and BIOL 414
CHEM 184 and CHEM 188
EECS 128 or equivalent

Proposed New Requirements
MATH 125 and MATH 126 (MATH 220 and 320 are also recommended)
PHSX 211 or 114 and 201; and
PHSX 212 or 115 and 202
BIOL 150 and 152
CHEM 130 (or 190) and CHEM 135 (or 195)
EECS 138

CHANGES:
Remove MATH 115 and MATH 116
Change 121 and 122 to 125 and 126
Add (MATH 220 and 320 are also recommended)
Add PHSX 201 and 202 to PHSX 114 and PHSX 115
Remove BIOL 414
Add BIOL 150
Add (or CHEM 135) and (or CHEM 195)
Remove EECS 128 or equivalent
Add EECS 138

JUSTIFICATION
These requested changes were submitted back in 2011, but apparently were not included with the other suggested changes for approval. Hence, we are re-submitting them now.

f. Changes to Existing BS Geography – Geographic Information and Analysis Option

PROPOSAL

Bachelor of Science in Geography: Geographical Information and Analysis Option
Current Requirements
Preparation for the Major
MATH 121 and MATH 122 (or MATH 115, MATH 116 and MATH 122)
EECS 128 or GEOG 514 or equivalent
PHSX 114 or 115 or BIOL 150 and 152

Proposed New Requirements
MATH 125 and MATH 126
PHSX 211 or 114 and 201; and
PHSX 212 or 115 and 202
EECS 138 or GEOG 514

CHANGES:
Remove MATH 115, MATH 116 and MATH 122
Remove PHSX 114 or 115 or BIOL 150 and 152
Add PHSX 211 and 212
Remove EECS 128
Add EECS 138

JUSTIFICATION
These requested changes were submitted back in 2011, but apparently were not included with the other suggested changes for approval. Hence, we are re-submitting them now.

g. New Minor – Visual Art

Academic Program Proposal
Provost Summary
University of Kansas - Lawrence
Date: May 14th, 2014

<table>
<thead>
<tr>
<th>Area</th>
<th>Summary</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Program Identification</td>

</tr>
</thead>
<tbody>
<tr>
<td>Program Description</td>
<td>The Visual Art minor welcomes non-majors who wish to learn more about the foundations of visual art. Concentrations include ceramics, drawing, painting, expanded media, textiles/fibers, Metalsmithing/jewelry, printmaking, and sculpture. The visual art minor advances artistic ability through hands on creation, exhibition, and research.</td>
</tr>
</tbody>
</table>
| Demand/Need for the Program | Academic Advisor for the School of the Arts has noted that in the last year a large number of students have inquired about a minor in Visual Art. There has always been a high level of interest in a minor in Art. Prior to the Department of Visual Art joining the College in 2009, courses for non-majors were never offered. By 2010 courses were developed in every studio area to offer to the College and University as a whole. Students across the university in a variety of majors and schools have expressed interest in art to enhance their current degree or to fulfill interest. Since many of the entry level Visual Art courses, now meet KU core requirements, there will be even more students eager to enroll in these courses. A visual art minor would enhance many different majors to better match student’s career interests and goals upon graduation. For example, a popular request is from Psychology and Applied Behavioral Science majors who would like an art minor due to their interest in Art Therapy.  
ART 101: Drawing I, the first course in the minor sequence fulfills Goal 3H Arts & Humanities, along with many of the intro level art studios. In addition, Visual Art offers courses in each art concentration area (17 courses total) to fill Goal 6, which could be taken as part of the minor. Visual Art is also in the process of submitting ART 395/595 Study Abroad course to the KU core goal 4.2 Global Awareness, which will provide additional opportunities for KU students to meet core requirements while fulfilling the requisite courses for the minor in Visual Art. Visual Art offers two continuing study abroad programs: one in Europe and one in Japan. Either of these programs could be appropriate and of interest to a student with a Minor in Visual Art. |
| Comparative/Locational Advantage | University of Nebraska – Art Minor (18 hours): no JR/SR hour requirements  
Truman State – Art Minor (15 hours): no JR/SR hour requirements  
Fort Hays State – Art Minor (24 hours)  
Wichita State – No Minor  
Emporia – No Minor  
Kansas State – No Minor |
6. Curriculum

**Visual Art Department**
**Minor in Visual Art**
18 hours total
12 JR/SR hours required

**FOUNDATIONS** 3 hrs

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 101 / 103 / 104</td>
<td>3</td>
</tr>
</tbody>
</table>

**VISUAL ART INTRODUCTION COURSES** 3 hrs

1 course required in any of the following areas:

<table>
<thead>
<tr>
<th>Area</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ceramics: (ART 131 or any CER)</td>
<td>3</td>
</tr>
<tr>
<td>Drawing: (ART 120 or any DRWG)</td>
<td>3</td>
</tr>
<tr>
<td>Expanded Media: (ART 123 or any EXM)</td>
<td>3</td>
</tr>
<tr>
<td>Metals/Jewelry: (ART 132 or any METL)</td>
<td>3</td>
</tr>
<tr>
<td>Painting: (ART 120 or any PNTG)</td>
<td>3</td>
</tr>
<tr>
<td>Printmaking: (ART 121 or any PRNT)</td>
<td>3</td>
</tr>
<tr>
<td>Sculpture: (ART 122 or any SCUL)</td>
<td>3</td>
</tr>
<tr>
<td>Textiles/Fibers: (ART 130/133 or any TD)</td>
<td>3</td>
</tr>
</tbody>
</table>

**VISUAL ART COURSES (minimum 12 Jr/Sr hrs.)** 12 hrs

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**TOTAL** 18 hrs

None of these courses would be offered via distance learning or online as they are art studios.

7. Faculty Profile

There would be no additional faculty needed for the visual art minor.

Faculty listing:
[http://art.ku.edu/faculty](http://art.ku.edu/faculty)

8. Student Profile

Anticipated student enrollment:

<table>
<thead>
<tr>
<th>Year</th>
<th>Full Time</th>
<th>Part Time</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>20</td>
<td>2</td>
<td>22</td>
</tr>
<tr>
<td>Year 2</td>
<td>35</td>
<td>5</td>
<td>40</td>
</tr>
<tr>
<td>Year 3</td>
<td>45</td>
<td>5</td>
<td>50</td>
</tr>
</tbody>
</table>

The Visual Art Department believes the minor will be very popular and anticipate that the number of program graduates will continue to grow each year. We anticipate after 5 years having 50 minors or more in the program.

9. Academic Support

The department will need no additional support to create and implement the minor.

10. Facilities and Equipment

There will be no additional facilities or equipment needed to implement the minor.

11. Program Review, Assessment, Accreditation

The Visual Art Department is accredited through the National Association of Schools of Art and Design (NASAD), which was last completed in 2013.

12. Costs, Financing

There will be no new funding required for this program.
3. KU Core Proposals
