Academic Career: Graduate, Lawrence
Subject Code: PSYC
Academic Unit: Psychology (PSYC)
School/College: College of Lib Arts & Sciences
Locations: Lawrence

Do you intend to offer any portion of this course online?
Yes

Please Explain
Course is to be taught online with no in-person meetings of the class.

Title: Interprofessional and Integrated Behavioral Health Care
Transcript Title: IntProf & Int Behav Hlth Care
Effective Term: Summer 2017

Catalog Description:
Overview of current interprofessional care models in primary care. Review integrated behavioral health care approaches to common mental health disorders and approach to lifestyle issues, such as smoking, exercise and poor sleep, and how they impact health. Learn how medical and behavioral health services come together within primary care at an interprofessional level to deliver health care. Review research emerging on integrated and interprofessional care models.

Prerequisites:
Graduate student in psychology, health related field, or permission of instructor.

Cross Listed Courses:

Credits: 3
Course Type: Lecture (Regularly scheduled academic course) (LEC)
Grading Basis: A-D(+/-)FI

Typically Offered: Twice a Year, Spring & Summer
Repeatable for credit?: No

Will this course be required for a degree, major, minor, certificate, or concentration?
No

Rationale for Course Proposal:
Provide interprofessional and integrated behavioral health care course to a variety of students enrolled at KU. Health psychology is involved in many professions to include psychology, educational psychology, allied health professions, exercise science, sociology, social welfare, and many others.

Title: Speech Perception

Transcript Title: Speech Perception

Effective Term: Spring 2017

Catalog Description: Acoustic and perceptual characteristics of phonemes, words, and connected speech for normal-hearing adults and infants; how speech perception is assessed clinically and is affected by hearing loss, aging, use of amplification, talker differences, and linguistic factors.

Prerequisites: None

Cross Listed Courses:

<table>

Credits: 2

Course Type: Lecture (Regularly scheduled academic course) (LEC)

Grading Basis: ABCDFI

Typically Offered: Only Spring Semester

Repeatable for credit? No

Will this course be required for a degree, major, minor, certificate, or concentration?

No

Rationale for Course Proposal: Speech Perception has been taught as a Special Seminar under SPLH 764 for many years. It also has been taught under AUD 816 SPLH department would like this course to have its own number (SPLH 716) rather than listed under a special seminar because it has been and will continue to be taught every spring.

Course Reviewer Comments

Rachel Schwien (rschwien) (10/18/16 3:05 pm): AUD (John Ferraro) approves of adding SPLH cross listing

Title: Scientific Communication
Transcript Title: Scientific Communication
Effective Term: Fall 2017

Catalog Description:
Principles of English communication skills for the professional scientist. The course begins by exploring the role form, function, and practice (including advice) of narrative in all forms of scientific communication; it then applies the use of narrative tools communication, emphasizing elements of writing and speech that are important to scientific writing, message honing and speaking, clarity and precision. The course covers written and verbal communication of primary research, research results as well as composing correspondence, a curriculum vitae, reviews, etc. Students must have an independent research project on which to focus their communication assignments.

Prerequisites:
None.

Cross Listed Courses:

<table>

<tbody>
<tr>
<td>EVRN 735</td>
<td>Scientific Communication</td>
</tr>
</tbody>
</table>

Credits: 3

Course Type: Lecture (Regularly scheduled academic course) (LEC)

Grading Basis: A-D(+/-)/FI

Typically Offered: Only Fall Semester

Repeatable for credit?
No

Will this course be required for a degree, major, minor, certificate, or concentration?
No

Rationale for Course Proposal:
We propose to renumber the course so that upper level undergraduates (e.g., seniors) are eligible to take the class. The course description revisions are intended to inform students of the need to have their own independent project.

Justification for this request:
BIOL 840 will be replaced by a course at the 700-level that will have revised scope and content; both undergraduate and graduate students are the target audience for the revised course.

Course Reviewer Comments:
Rachel Schwien (rschwien) (10/05/16 10:26 am): Rollback: Please edit existing BIOL 840 instead of proposing a new course
Rachel Schwien (rschwien) (10/06/16 8:34 am): waiting on confirmation from EVRN
Rachel Schwien (rschwien) (10/07/16 10:58 am): EVRN approves of the cross list
